	Total (B)	29.80	10.00	-	39.80
	Grand Total (A+B)	884.79	973.45	1030.87	2889.11

Since inception upto March, 2023

- (1) 1358 hybrids evaluated and 49 were recommended for commercial release.
- (2) One TPS population (92 PT 27) was also recommended.
- (3) 129 region-specific potato production recommendations were brought out.
- (4) 81 plant protection measures were recommended.
- (5) 4 recommendations were also brought out on potato seed production.
- (6) Three software for decision support were developed
 - ✓ **“INDO-BLIGHTCAST”** for forecasting late blight appearance,
 - ✓ **“Potato Growing Season Descriptor”** for crop scheduling decisions
 - ✓ **“Potato Empirical Nitrogen Management Advisory System”** for precision nitrogen recommendations.
